### IMPORTANT NOTICE 2011

#### TO COMPANIES AND CONTRACTORS THAT HANDLE ASBESTOS CONTAINING MATERIALS, RENOVATE OR DEMOLISH ANY STRUCTURE

SCAQMD Regulation III - Fee amendments for the Fiscal Years 2011-2012 increased notification fees 1.4 percent (%) across-the-board. Notifications of Asbestos Removals and Demolition of structures are subject to the new fees effective July 1<sup>st</sup>, 2011. The fee schedule is in Rule 301 Table VI (see pg 2) or on the Asbestos Notification Forms.

Asbestos Removal Notifications require a fee based on the amount of asbestos removed in square feet. Demolition Notifications require a fee based on the building size in square feet for total building demolitions. For partial demolition of a building the fee is based on the demolition size. Fees are per notification and additional service charge fee(s) may apply.

Initial Notifications postmarked less than 14 calendar days prior to project start date require the Special Handling Fee of \$53.89. NOTE: This fee is for the expeditious handling of emergency and late notifications and *is not* a waiver of the prior 10 working-days notification requirement.

Service charge for any returned check is an additional \$25.00. See Rule 313(i)

Revisions to the notification increasing the asbestos amount or demolition size but remaining in the same amount/size category stated in previously submitted notification(s) require only a revision fee. Revisions to the notification in amount/size category require a revision fee plus the entire fee for the applicable amount/size category. NOTE: Any schedule change stated in the previously submitted notification(s) requires a revision fee.

Planned Renovation Notifications require a review fee of \$604.73 and a notification fee based on the abatement project size in square feet. This includes annual notifications for nonscheduled asbestos removal.

The Procedure 4 and 5 Plans require an evaluation fee and a notification fee based on the abatement project size in square feet. There is also an Expedited Procedure 4 or 5 Fee of \$302.36 for all expedited Procedure 4 or 5 plan evaluation requests postmarked less than 14 calendar days prior to the project start date. A Procedure 5 plan is required for any abatement project using an alternative combination of techniques and/or engineering controls to handle the asbestos containing materials or asbestos containing waste. Other projects requiring Procedure 5 Plans include but are not limited to all asbestos site clean-ups, open air abatement, and all demolition with asbestos in place. See the AQMD asbestos web page for a Procedure 5 Plan Guideline.

AQMD recommends mailing your notification to save time, money, reduce traffic, energy use and air pollution. For your convenience please mail all notifications and fees to the following mailing address:

## ASBESTOS/DEMOLITION RULE 1403 - GENERAL INFORMATION

**SURVEY REQUIREMENT:** Asbestos surveys are required prior to any renovation or demolition. See R1403(j) for exemptions. Asbestos must be removed prior to renovation activities that may disturb the asbestos containing materials. *All* asbestos must be removed prior to building demolition.

**NOTIFICATION REQUIREMENTS:** Postmark notifications **14 calendar days prior** to starting any asbestos removal of 100 ft<sup>2</sup> or greater or *any* demolition. Notifications shall be filled, signed, paid, submitted and mailed by the contractor performing the removal and/or demolition job. Notifications without signature(s) require a revision. Renovations without asbestos do not require notification. Los Angeles City, Palm Springs Fire Department, and Cal-OSHA require a separate Notification.

**FEE REQUIREMENT:** Rule 301(o) require all notifications to be submitted with appropriate fees. *Fees are per notification and are not refundable.* Notifications submitted without appropriate fees may be returned, deemed incomplete, and referred to the compliance unit for follow-up. Projects conducted without a valid notification are subject to local and federal enforcement. Cancellation of notifications and removal projects less than 100 square feet are exempt from fees - other requirements may apply.

**MAILING REQUIREMENT:** Mail the notification and fee to SCAQMD, ASBESTOS NOTIFICATIONS, FILE # 55641, LOS ANGELES, CA 90074-5641. Mailing saves time, money and reduces traffic and air pollution.

**REVISIONS:** Fax revisions to 909-396-3342. Update the notifications as necessary, pencil in the change(s); write the reason for the revision at the top of the notification. Fees are per notification and multiple service charge fees may apply. Revisions increasing the asbestos amount or demolition size but remaining in the same amount/size category stated in a previous notification(s) require only a revision fee. Increase in amount/size category requires a revision fee and the entire fee for the higher applicable amount/size category. Notifications expire along with the project schedule end date and they can not be revised after the expired end date.

**EMERGENCY NOTIFICATIONS:** Fax emergencies to 909-396-3342. Emergencies are for immediate asbestos removals due to unsafe conditions, breakdowns, flood, earthquake, fire, and site contamination; and *require a formal letter from the person confirming or agency authorizing the emergency.* For Ordered Demolitions fax a copy of the legal notice or Building and Safety "red tag". For emergency site de-contamination to clean-up disturbed asbestos fax a Procedure 5 for *prior* written approval. See Procedure 4/5 Plans.

**FAX NOTIFICATIONS.** Fax notifications are required for Revisions, Emergencies, Ordered Demolitions, Electronic Notifications, and Cancellations. Fax notifications to 909-396-3342 and within 48 hours of fax-time; postmark/mail the Original Notification with the fee to SCAQMD, ASBESTOS NOTIFICATIONS, FILE # 55641, LOS ANGELES, CA 90074-5641. Fax notifications do not replace the Original signed notifications required by local and federal law. For Emergencies include the letter authorizing the Emergency. For Ordered Demolitions include proof of asbestos survey, removal and disposal. For Ordered Demolitions without prior asbestos removal submit a Procedure 5 Plan for *prior* written AQMD approval. Cancellations do not require mail follow-up.

**DEMOLITIONS** require 4 PRIOR steps: **1** Asbestos Survey, **2** Asbestos Removal, **3** AQMD Notification, **4** B&S permit.

**ALL** demolitions require a notification by the contractor doing the demolition. Demolitions without prior asbestos removal require *prior written approval* from AQMD (See Procedure 5 Plan Guideline). Demolition is defined as the wrecking or taking out of a load-supporting structural member of a facility or the intentional burning of a structure. Dismantling of partitions and installation of windows and doors through load-supporting walls without asbestos is exempt from notification. **DEMOLITION BY INTENTIONAL BURNING** require the 4 prior steps listed above plus 2 more steps: **5** Rule 444 "training burn notification" to SCAQMD at 800-442-4847 the day prior to burning, and **6** conduct the training burn on a burn day. Fire departments are responsible for obtaining documented proof of asbestos clearance and demolition notification, phoning AQMD the Rule 444 notification the day prior to the training burn, and coordinating with the demolition contractor to clean the site right after the training burn is completed.

**RENOVATION** is the removal, stripping, or altering of asbestos containing materials, and/or any activity involving the associated disturbance of asbestos in a facility. Renovations require an asbestos survey and removal prior to any activity that would disturb the asbestos. Building remodeling or renovations without asbestos do not require notification. See Survey Requirements

**PLANNED RENOVATION NOTIFICATIONS (PRN):** There are two types of *PRN - Nonscheduled Asbestos Removals (aka Annual Notification)* are projects less than 100 sq ft that require a cumulative annual notification postmarked by each December 17, if the combined amount of asbestos to be removed from a facility exceeds the removal threshold limit (100 sq ft) during a calendar year.

The second PRN type is to notify for a series of *Scheduled Asbestos Removals* projects within a large facility, where each project is greater than 100 sq ft. These notifications require an attachment listing each individual project planned within the facility detailing the work locations/areas/buildings involved including its sizes, floors, ages and uses, the amounts and types of asbestos at each location/area/building, each project scheduled dates, and asbestos types and amounts. Any project schedule change requires a Revision. Any individual removal job (whether it is scheduled or nonscheduled) greater than 100 sq ft requires an individual notification. All Rule 1403 requirements apply regardless of the size of the asbestos removal project.

**PROCEDURE 4/5 PLANS:** Procedure 4 Plans are for dry removals. Procedure 5 plans are required for asbestos disturbances, site clean-ups, decontaminations, excavations, and demolitions with asbestos. These plans *require prior* evaluation and approval by AQMD. To obtain approval fax the survey report, the plan, and the notification to 909-396-3342 attention Asbestos Supervisor. **For after hours** fax and leave a message at 1-800-CUTSMOG for the asbestos supervisor. Within 48 hrs of Plan approval, postmark the hard copies of the plan, notification, and fees.

**KEEP A COPY OF YOUR NOTIFICATION.** State law requires you give a copy of the demolition notification to Building and Safety before issuance of a demolition permit. This law *does not* require proof of receipt or approval by AQMD. For your convenience, please mail the notification. Mailing saves you time, money, gasoline, and reduce traffic, energy use, and air pollution.

For questions call the asbestos HOTLINE at 909-396-2336.

# NEW REGULATION ON LEAD:

## Renovation, Repair and Painting (RRP)

— Effective April 22, 2010 —

### YOU NEED:

-  To be trained and certified as a renovator
-  To use lead-safe work practices
-  To keep required records
-  To make required disclosures
-  To know that there is a potential \$37,500 penalty per violation

### Why is it important?

#### LEAD DUST HURTS KIDS!

Repair or remodeling projects which disturb lead paint can produce enough lead dust to evenly cover this card. That amount will poison a 1,500 sq. ft. house or apartment, and will fail inspection.

Attn: Building Permit Office Director

EPA's Lead-Based Paint Renovation, Repair, and Painting Rule: the new rule requires that contractors and maintenance professionals working in pre-1978 housing, child care facilities, and schools with lead-based paint be certified; that their employees be trained and that they follow protective work practice standards. The rule applies to renovation, repair, or painting activities affecting more than six square feet of lead-based paint in a room or more than 20 square feet of lead-based paint on the exterior. Enforcement of the rule began October 1, 2010. See the EPA website at [www.epa.gov/lead](http://www.epa.gov/lead) for more information.

We would appreciate you making the enclosed information sheets available to persons applying for a building permit and displaying the color poster. If you have questions or need more information sheets, contact Marjorie Xavier at (415) 947-4164.
